Rosario De Marco

Intuition

Rosario De Marco, guitarist-composer is renowned throughout Italy for his arrangements and performances of Neapolitan and popular music. Rosario has performed live as well as for national TV and radio. He has released a number of CDs, including *Light and Shadows* and *Roots*. His music captures the warmth and passion of the Southern European lands, taking elements from flamenco, jazz, classical, folk and popular music.

Rosario's passionate desire to broaden and to extend his musical inspiration brought him to the idea of the United World Music project. The U.W.M. project combines Mediterranean sounds with other musical styles and utilises different instruments (guitar, drums, bass, percussion, saxophone, voice). Some of Australia's leading jazz musicians have been involved in performances of Rosario's music.

Rosario's CD *Light and Shadows* was released on the Australian market in 2000 and he can often be heard on radio stations such as SBS, 3AK, ABC and 3MBS.

Dedicated to my mentor in life, Daisaku Ikeda

Credits

Music composed, arranged and performed by Rosario De Marco

Recorded in April–May 2001 at the Move Records studio,
Eaglemont, Victoria, Australia

All tracks recorded, mixed and mastered by Thomas Grubb

The journey from Kamakura to Kyoto takes twelve days. If you travel for eleven but stop with only one day remaining, how can you admire the moon over the capital?

Nichiren Daishonin (1222 - 1282)
