Four Wind Quintets Volume 2

"Martin shows an undeniable respect for tradition and a clear concision when it comes to compositional force. He appears to firmly grasp the summative nature of his work... for that I applaud him." Mike Strizic (MyEntertainmentWorld.ca)

"Martin's works, coming from a personal musical voice that has an instinctive relationship with each of the instruments used, these quintets are highly interesting excursions into the capabilities of wind instruments." David Denton Fanfare Magazine
