Andreas repertoire ranges from classical, to jazz and ballads.

In his own words:

*The title, *Passage of Time* refers to a nostalgic feeling, a time that has passed and will never return. In these compositions, I have sought to explore different emotional atmospheres, with nature serving as a foundational element. The*

pieces unfold within a constantly changing landscape, mirroring the cyclical progression of the sun.

Andreas Sporrong has performed with several renowned ensembles, like KammarensembleN, Norrbotten Neo and the Symphony Orchestra of Norrköping.
